To whom it may concern,

I am writing this letter of recommendation on behalf of Owen Quin, a high school student under my guidance in the field of computer science. As Owen's Computer Science teacher, I have had the pleasure of observing him develop both academically and personally over the past 4 years at Old Colony Regional Vocational Technical High School.

Owen has consistently demonstrated a strong aptitude for computer science and a genuine passion for learning in this field. He has successfully completed a rigorous curriculum that includes programming in Java, JavaScript, C#, and Python as well as Web Design with HTML/CSS, showcasing his ability to grasp complex concepts and apply them effectively.

Beyond technical proficiency, Owen is an excellent team player and collaborator. He actively participates in group projects, demonstrating effective communication and a willingness to contribute to the success of the team. His positive attitude and collaborative nature make him a valuable asset in any academic or professional setting.

In addition to Owen's academic achievements, he has also displayed a commitment to personal growth and development. He consistently seeks opportunities to challenge himself, participating in extracurricular activities such as the wrestling team and National Honor Society.

In conclusion, I wholeheartedly recommend Owen for any academic or professional pursuits in the field of computer science. He possesses the qualities of a dedicated and capable student, and I am confident that his passion for computer science will lead to continued success in his future endeavors.

Please feel free to contact me at sriley@oldcolony.info should you like to discuss Owen's qualifications and experience further. I'd be happy to expand on my recommendation.

Sincerely,

Mr. Riley
Computer Science
